Docket No. ;

Honorable Commissioner for Patents  
Washington DC 20231

Sir,

The attached, dated May 2005, was submitted against an office action dated 03/01/04. It's been eight months since the submission and I am requesting disposition of my amendment and status of my patent. It should be noted that I spoke telephonically with the examiner regarding my amendment in early January 2006 and was told that through some oversight, the documentation was never "logged in" to his attention. I'm not sure I understand what that meant, but I hope this matter could get some attention at this time.

Respectfully submitted,

William Duda
